- Nanomaterials
- Advanced materials
- Composite materials
- Functional materials
- Materials characterization
- Materials processing
- Materials applications

The conference will also include a number of special events, such as:

- Keynote speeches by world-renowned experts
- Panel discussions on the latest trends in materials science
- Poster presentations by students and early-career researchers
- An exhibition of the latest materials science products and technologies

SEFM 2024 is an excellent opportunity to learn about the latest advancements in materials science and to network with leading researchers and industry professionals. We encourage you to submit your abstract and register for the conference today.

Important Dates

- Abstract submission deadline: March 15, 2024
- Early registration deadline: June 15, 2024
