What is Extreme Weather?

Extreme weather is any weather event that is unusual or severe. It can include things like hurricanes, tornadoes, floods, droughts, and wildfires. Extreme weather events can cause widespread damage and loss of life.

What Causes Extreme Weather?

Extreme weather is often caused by a combination of factors, including:

- Climate change
- El Niño and La Niña

- Natural variability

How to Stay Safe During Extreme Weather

The best way to stay safe during extreme weather is to be prepared. Here are some tips:

- Have a plan in place in case of an emergency.
- Assemble an emergency kit that includes food, water, first aid supplies, and other essential items.
- Stay informed about weather forecasts.
- Follow the instructions of local officials.
- Be aware of the signs of severe weather.

What to Do After Extreme Weather

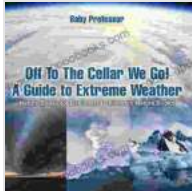

If you experience extreme weather, it's important to take the following steps:

- Check for injuries.
- Contact your insurance company.
- Help your community clean up.

Extreme weather is a serious threat, but it's important to remember that you can prepare for it. By following these tips, you can help keep yourself and your family safe during severe weather events.
